

## 26 Bioregulator Peptides

1. **Adrenals** - **Adrenact**: Supports stress hormone regulation, emotional resilience.
2. **Bile** - **Biltorin**: Enhances bile production and digestion.
3. **Bladder** - **Chitomur**: Improves bladder function and urine flow.
4. **Blood Vessels** - **Ventfort**: Strengthens vascular walls and improves blood flow.
5. **Bone Marrow** - **BonoCore**: Boosts red blood cell production.
6. **Brain/CNS** - **CogniPep** / **CerebroPep** / **Pinealon**: Enhances cognitive function and brain health.
7. **Cartilage** - **Sigumir**: Promotes joint regeneration and mobility.
8. **Collagen** - **Collacell**: Improves skin elasticity and joint health.
9. **Gastric Mucin** - **Gastrogen**: Protects stomach lining from ulcers, prevents acid reflux.
10. **Heart** - **Kardium**: Strengthens heart muscle and function.
11. **Hypothalamus** - **Hypotalen**: Regulates hormones and stress response.
12. **Kidneys** - **Rhenolux**: Supports kidney function and detoxification.
13. **Liver** - **Svetinorm**: Enhances liver detoxification and regeneration.
14. **Lungs** - **LunGuard**: Improves lung function and oxygen exchange. Asthma relief.
15. **Muscles** - **GoTratix**: Enhances muscle strength and recovery.
16. **Ovaries** - **Ovalis**: Supports hormonal balance, reproductive health and peri- menopause relief.
17. **Pancreas** - **Suprefort**: Improves insulin and digestive enzyme production.
18. **Parathyroid** - **Bonothyrk**: Regulates calcium and bone health.
19. **Pineal** - **PinealPep** / **Endoluten** / **Epitalon**: Assists melatonin / sleep, telomeres / anti-aging.
20. **Pituitary** - **Endocron**: Supports hormone secretion and endocrine balance.
21. **Prostate** - **Prostalon**: Improves prostate health and urinary function.
22. **Retina/Vision** - **Visoluten**: Enhances retinal health and visual acuity.
23. **Stomach** - **Stomek**: Supports gastric mucosa and digestion.
24. **Testes** - **Testovive**: Boosts testosterone and male fertility.
25. **Thymus** - **Thymogen Alpha 1**: Enhances immune response and T-cell production.
26. **Thyroid** - **ThyroPep**: Regulates thyroid function and metabolism. Boosts energy.
